## Award for Outstanding Achievement in Popular Annual Financial Reporting

PRESENTED TO

San Diego County  
Employees Retirement Association  
California

for the Fiscal Year Ended  
June 30, 2008

  
President  
  
Executive Director

The Government Finance Officers Association (GFOA) of the United States and Canada has given an Award for Outstanding Achievement in Popular Annual Financial Reporting to SDCERA for its Popular Annual Financial Report for the fiscal year ended June 30, 2008.

## MISSION STATEMENT

SDCERA is committed now and in the future to achieving its primary duty, which is to its members, by prudently managing the fund, efficiently administering benefits and providing superior service to members.

I am pleased to submit this summary of the *Popular Annual Financial Report* of the San Diego County Employees Retirement Association (SDCERA) for the year ended June 30, 2009.

SDCERA is a public employee retirement system that was established by the County of San Diego on July 1, 1939, and is administered by a Board of Retirement to provide service retirement, disability, death and survivor benefits for its members under the California Government Code, Section 31450, et. seq. (County Employees Retirement Law of 1937).

### FINANCIAL AND ECONOMIC SUMMARY

Global and capital markets registered one of the weakest recorded returns in history for the fiscal year 2009. The market crisis reached its tipping point in September 2008 with the failures of major financial institutions that ultimately led to coordinated actions by policymakers across the world to stem the crisis.

SDCERA's funding ratio, which compares the actuarial value of the plan's assets to its liabilities, decreased to 91.5%, down just 2.9% over last year. On a market value basis, the total net assets held in trust were \$6.2 billion on June 30, 2009.

During this difficult period in the financial markets, the SDCERA Fund underperformed relative to its policy benchmark for the fiscal year. The Fund generated a net of fee return of -24.4% against a policy benchmark return of -18.1%. However, the last six months of the fiscal year were quite favorable as the Fund regained its footing and placed in the 1st percentile over that period in the Wilshire Associates' Trust Universe Comparison Service (TUCS). The Fund continues to have strong, long-term relative performance, ranking in the 25th and 17th percentiles for the five and 10-year periods, respectively, among all TUCS public funds with more than \$1 billion in assets.

SDCERA continues to work through the challenging market environment and is seeing signs of steady growth. The Fund earned \$692 million in the first quarter of fiscal year 2010 and \$1.4 billion since March 2009, when the market was at its lowest point.

### MAJOR INITIATIVES AND SIGNIFICANT EVENTS

SDCERA's new pension administration system is nearing completion. Scheduled for implementation in 2010, the new system's technology will enhance all business processes as well as improve services offered to members.

The Board amended the Interest Crediting policy to address negative earnings treatment, regular and member interest crediting rates and service purchase interest rates. The semiannual regular interest rate, as well as the semiannual member crediting rate, will be equal to the actual earnings of the fund for that semiannual period or one-half the current actuarial interest assumption rate, whichever is lower, but with a minimum semiannual interest rate of zero.

### AWARDS AND ACHIEVEMENTS

The Government and Finance Officers Association (GFOA) of the United States and Canada presented SDCERA with the Award for Outstanding Achievement in Popular Annual Financial Reporting for the year ended June 30, 2008. This prestigious national award recognizes conformance with the highest standards for state and local government financial reporting. We are confident this current report will also receive favorable consideration when we submit it for the 2009 GFOA award.

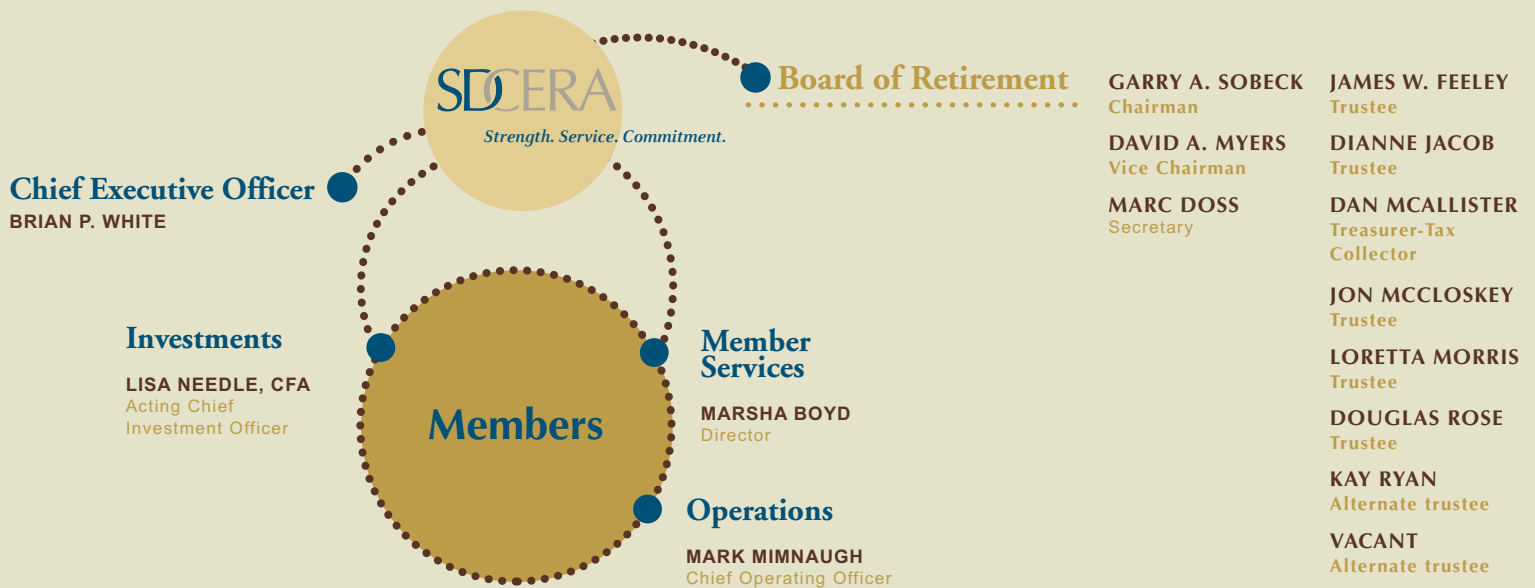

The Public Pension Coordinating Council also granted SDCERA an award for meeting the public pension standards for plan design and administration.

Thank you for taking the time to view our *Popular Annual Financial Report*, and as always, we welcome your feedback.
